v.46
965.

# INDEX TO ILLUSTRATIONS

Absorption coefficient produced by statistical Stark effect and by the normal radiation damping ..... 448
the same amount of statistical Stark effect (as above) and by a damping constant 10 times greater ..... 449
Aërolite, The Baxter, Stone Co., Missouri (two views) ..... 408
Age distribution of iron meteorites, based on the helium-radium ratio..... 164
American Astronomical Society—
Ann Arbor, Michigan, September 14-17, 1938, Plate XII .....Op. 454
Bloomington, Indiana, December 29-31, 1937, Plate I .....Op. 67
Aquarii, Curves for $\pi$ ..... 364
Asteroid, Pallas, Path of ..... 398
Vesta, Path of ..... 322
Asteroids, Distribution of mean distances from sun for 1380 ..... 17
the eccentricities and inclinations for 1379..... 21
Paths of four ..... 269
Barrett, Storrs Barrows (1864-1937) ..... 127
Benld meteorite, The, View showing building struck by ..... 552
detailed character of crust ..... 556
Pontiac coupe struck by ..... 553
prismatic aspect of ..... 555
small fracture made in striking ..... 551
surface characteristics of ..... 549
Black stone of the Ka'bah, Views of ..... 404
Cassiopeiae, Mean light curve of gamma ..... 185
Centennial celebration of Loomis Observatory, Distinguished guests at..... 360
City Hall, Stockholm, The ..... 543
Contours of hydrogen ..... 365
Cross-section of the earth showing properties of earth-shells ..... 483
Curve of growth for R Coronae Borealis ..... 442
Curves of growth for a dwarf ..... 450
Observed ..... 439
Theoretical ..... 438
Czechoslovakia, Distribution of the tektites in ..... 47
Distances from sun for 1380 asteroids, Distribution of mean ..... 17
Earth-moon system, A model showing the dynamics of the ..... 255
Eccentricities and inclinations for 1379 asteroids, Distribution of the..... 21
Eclipse of 1505 August 14, The total lunar, Plate VI .....Op. 388
1923 September 10, The solar, as seen from Lodi, California..... 150
1937 November 18, The partial lunar (diagram) ..... 76
1938 May 14, Initial penumbral phase of the lunar, Plate VI..Op. 388
The total lunar (diagram) ..... 388
May 29, Total (diagram) ..... 34
November 21-22, Partial (diagram) ..... 36
Eclipses, Partial, Nos. 5 to 10 of Saros Series S 49 ..... 565
Temperature and barometric pressure for the 1932 and 1934 ..... 203

Eros among the stars in January, 1938, Path of ..... 42
Francis G. Pease (1881-1938), Plate II .....Op. 357
*Fvndamentvm Astronomicvm,* Reduced facsimile of final page of Nicolas Reymers' ..... 26
Gamma Cassiopeiae, Mean light curve of ..... 185
George Ellery Hale (1868-1938), Plate VII .....Op. 423
Gravitation, Charts illustrating a concept of .....87, 88
Grotrian diagram for He I ..... 501
Hale, George Ellery (1868-1938), Plate VII .....Op. 423
International Astronomical Union at Stockholm, Group of persons attending the, Plate XVIII .....Op. 539
Jupiter satellites X and XI, Apparent paths of ..... 510
Lacertae, 12, Light curves of .....242, 243
Light curve of R Aquarii, 1922-1937 ..... 56
R Scuti, 1924-1938 ..... 345
curves of R Coronae Borealis type variables, 1930-1938 ..... 528
12 Lacertae .....242, 243
intersections (schematic) ..... 417
Loomis Observatory, Distinguished guests at centennial celebration of..... 360
Lunar saros series, Distribution of short and long umbral runs ..... 459
McMath-Hulbert Observatory, Staff of the ..... 454
Mars in 1937, Chart of ..... 261
Drawings of ..... 262
Meteor, Photographs of and diagrams explaining the nearly stationary..... 106
rates determined in New Zealand ..... 517
Theoretical and observed ..... 520
Meteoric apex, Change of rate with altitude of ..... 519
Meteorite, An unetched surface of a Canyon Diablo ..... 285
falls, The frequencies of, plotted against the hours of day and night 52
The Benld, View showing building struck by ..... 552
detailed character of crust ..... 556
Pontiac coupe struck by ..... 553
prismatic aspect of ..... 555
small fracture made in striking ..... 551
surface characteristics of ..... 549
meteoritic cloud of the Pantar ..... 579
place of the fall of the great Siberian, 1908 June 30 (map)... 312
Views of the Black Stone of the Ka'bah ..... 404
Meteorites, Age distribution of iron, based on the helium-radium ratio ..... 164
Meteoritic hypothesis of the origin of continents (diagrams) .....
.....484, 485, 486, 489, 490, 491
iron phosphide, Frequency polygons for ..... 283
Meteors, Heliocentric velocities for naked-eye and telescopic, Distribution of. 161
Neptune among the stars, The path of .....98, 513
Nocturnal, The ..... 133
Observatory, Noah W. McLeod's ..... 294
Plan view of the Loomis ..... 562
Staff of the McMath-Hulbert ..... 454
Orion and Taurus ..... 149

Orrery of the terrestrial planets ..... 390
The Sun-Earth-Moon .....393, 571
Sun-Mercury-Venus-Earth-Mars ..... 568
Parliament, The House of, Stockholm ..... 541
Pease, Francis G. (1881-1938), Plate II .....Op. 357
Planetary distances (diagram) ..... 338
Planets, Chart showing visibility of the, in 1938 ..... 32
Orrery of the terrestrial ..... 390
Profile, Construction of a rotational ..... 499
of Hγ in Vega ..... 444
Profiles of Hβ in ε Aurigae and γ Pegasi ..... 445
lines produced by Doppler effect, Theoretical ..... 441
radiation damping ..... 434
Si III lines ..... 498
Radial velocity measurements, Diagrams illustrating the procedure of..... 10
Typical objective prism spectra used for ..... 8
R Aquarii, Light curves of, 1922-1937 ..... 56
Rotating-pulsating model of a Be atmosphere ..... 367
Saturn, Apparent orbits of the seven inner satellites of ..... 38
Spectra of α Persei, Plate IX .....Op. 438
B-type dwarfs, Plate XVII .....Op. 505
B-type giants, Plate XVI .....Op. 505
β Canis Majoris, Plate XIII .....Op. 497
β Monocerotis ..... 363
β Piscium, Plate III .....Op. 372
γ Cassiopeiae, Plate IV .....Op. 373
γ Pegasi, Plate XI .....Op. 439
Plate XIII .....Op. 497
ε Aurigae, Plates VIII, IX .....Op. 438
ζ Tauri, Plate III .....Op. 372
Plate XIV .....Op. 504
HD 217050, Plate IV .....Op. 373
Iron and silicon spark, Plate XIII .....Op. 497
κ Orionis, Plate XIII .....Op. 497
Nova Aquilae 1918, Plate V .....Op. 373
P Cygni, Plate XV .....Op. 504
τ Scorpii, Plate XV .....Op. 504
10 Lacertae, Plate X .....Op. 439
17 Leporis, Plate VIII .....Op. 438
41 Cygni, Plate IX .....Op. 438
used for radial velocity measurements, Typical objective prism..... 8
Spectrocomparator, The measuring ..... 9
Staff of the McMath-Hulbert Observatory ..... 454
Stereogram of the earth-shells ..... 482
Stockholm Meeting of the International Astronomical Union, Group of persons attending the, Plate XVIII .....Op. 539
The City Hall ..... 543
House of Parliament ..... 541
Storrs Barrows Barrett (1864-1937) ..... 127
Taurus, Orion and ..... 149

Temperature and barometric pressure for the 1932 and 1934 eclipses ..... 203
Tektites, Distribution of the, in Czechoslovakia ..... 47
Photographs of Czechoslovakian ..... 50
Uranium isotopes, The relative terrestrial abundance of the ..... 166
Variable star EZ Aquilae (chart) ..... 412
V Sagittae, 201520, 1932-1937 ..... 112
VV Cephei, Ascending branch of, in 1936-37 ..... 530
Velocities for naked-eye and for telescopic meteors, Distribution of heliocentric 161
Zodiac, The signs of the ..... 81

# GENERAL INDEX

Absorption lines, The observation and interpretation of stellar, *Otto Struve* ..... 431, 497
*Adams, Arthur T.*, Model of the universe ..... 138
Amateurs, Notes from .....62, 116, 173, 214, 292, 333, 418, 471, 531, 586
American Association for the Advancement of Science, Meeting of Section D (Astronomy), *Harlan True Stetson* .....69, 594
of Variable Star Observers, Variable star notes from the, *Leon Campbell* .....55, 112, 170, 211, 288, 343, 410, 526, 583
Astronomical Society .....420, 594
The fifty-ninth meeting of the, *Dean B. McLaughlin* ..... 67
sixtieth meeting of the, *Curvin H. Gingrich* ..... 451
*Astapowitsch, I. S.*, On the fall of the great Siberian meteorite, June 30, 1908. 310
Asteroid notes, *Hugh S. Rice* .....40, 99, 153, 208, 269, 321, 398, 465, 513
orbits, The known, *Roy K. Marshall* ..... 15
Planckia ..... 350
Astronomers of Tacoma, Amateur ..... 418
Russian ..... 473
Astronomical analogies, *Charles Hetzler* ..... 475
Association of Des Moines, The Amateur, *C. O. Davis* ..... 589
gyroscope, An, *William S. von Arx* ..... 532
meetings of section D at Ottawa .....295, 350
photography with a view camera, *O. M. Erpenstein* ..... 148
Society, Detroit, *Claude B. Carpenter* ..... 118
Louisville, *Mary Eberhard* ..... 120
of Los Angeles, Amateur, *George Herbig* ....293, 333, 588
Nevada, The, *G. B. Blair* ..... 473
New Haven, Amateur, *F. R. Burnham* .....62, 118, 173, 215, 292, 333, 471, 472, 531, 587
Philadelphia, The Rittenhouse...236, 350, 420, 533, 595
The Cleveland, *Don H. Johnston* ....63, 116, 216, 334, 586
Joliet, *Robert L. Price* .....119, 587
symposium, *J. J. Nassau* ..... 359
Union, Meeting of the International, at Stockholm, Sweden, *Frederick C. Leonard* ..... 539
Astronomy and Charles II, *V. E. Atwell* ..... 62
at the Yerkes Observatory, Symposium on physics and ..... 120
by radio ..... 238
department reinstated at Brown University ..... 295
(D) of the A.A.A.S. in Ottawa, Section on ..... 462
in Japan, Fragmentary notes on, *Yasuaki Iba* .....89, 141, 263
the early days of the Western Reserve, *R. H. Cleminshaw*.... 559
news, Junior ..... 236
'38 down the centuries in ..... 534

Aurora Borealis on November 30, 1937, The, *Roy K. Marshall* ..... 64
observed in Iowa, *D. E. Hadden* ..... 123
Ohio, An, *Freeman D. Miller* ..... 476
of January 25, 1938, The, *Lewis J. Boss* ..... 123
widely observed ..... 476
*Balleisen, Charles E.,* Revised orrery calculations ..... 567
*Barker, Lulu,* Ode ..... 181, 430
*Barker, Robert,* The 1937 opposition of Mars ..... 259
Barrett, Storrs Barrows, *William W. Morgan* ..... 125
*Barry, Thomas D.,* Occultation of Uranus during the total eclipse of the moon, November 7-8, 1938 ..... 572
*Bartlam, E. R.,* A meteoritic hypothesis of the origin of continents ..... 481
Benld meteorite, The, *Ben Hur Wilson* ..... 548
Black stone of the Ka'bah, On the meteoritic origin of the, *Mohd. A. R. Khan* 403
*Blair, G. B.,* Finding the time by the stars ..... 132
*Bond, Fred C.,* The revolution period law ..... 589
Book Reviews—
Annales D'Astrophysique ..... 536
Astronomical Fundamentals for Everyone, by Rolf Müller ..... 479
Astronomy, by Robert H. Baker ..... 478
Astronomy, by W. M. Smart ..... 479
Astronomy for the Millions, by van den Bergh ..... 477
Bergedorfer Spektral Durchmusterung, Band 2 ..... 537
Comets, by Mary Proctor and A. C. D. Crommelin ..... 239
Early American Observatories, by William I. Milham ..... 355
Elements d'Astronomie et de Géodésie, by J. F. Cox ..... 477
Instruments of Precision ..... 239
Katalog und Ephemeriden Veränderlicher Sterne für 1938, by H. Schneller 180
La Notion de Temps, by Ernest Esclangon ..... 537
Leben und Wirken des Johannes Müller von Königsberg genannt Regiomontanus, by Ernst Zinner ..... 479
Lumière Nouvelle, by L. A. Jacquin ..... 477
Our Starland, by C. C. Wylie ..... 355
Portraits of Eminent Mathematicians, by David Eugene Smith..... 296
Publications received ..... 181, 239
Relativity and Robinson, by C. W. W. ..... 536
Stars, by Harriet Doan Prentiss ..... 179
Sunspots and their Effects, by Harlan T. Stetson ..... 65
The Advancing Front of Science, by George W. Gray ..... 536
The Autobiography of a Scientist ..... 180
The Nature of Variable Stars, by Paul W. Merrill ..... 177
The Observational Approach to Cosmology, by Edwin Hubble ..... 297
The origin of Life, by A. I. Oparin ..... 353
The Prediction and Reduction of Occultations ..... 65
Van Vleck Observatory Publications ..... 537
What New Wonders, by A. M. Low ..... 478
Zero to Eighty, by E.F. Northrup ..... 179
*Brady, L. F.,* An unusual oxidized mass of Canyon Diablo, Arizona, iron.... 110
*Browne, William Malcolm,* Visibility of the planets for 1938 ..... 31
*Buddhue, John Davis,* Chemical tests of "oxide" from the Tiffin hole ..... 222

*Buddhue, John Davis,* Meteoritic iron phosphide ..... 282
*Campbell, Leon,* Variable star notes from the American Association of Variable Star Observers .....55, 112, 170, 211, 288, 343, 410, 526, 583
Cepheid variables, The Harvard conference on ..... 378
Chemical tests of "oxide" from the Tiffin hole, *John Davis Buddhue* ..... 222
*Cherrington, Ernest,* On the variable magnitude of Gamma Cassiopeiae..... 183
*Cleminshaw, R. H.,* Astronomy in the early days of the Western Reserve .... 559
*Cohn, Willi M.,* Some meteorological observations in connection with the 1932 and 1934 total eclipses of the sun ..... 201
*Cole, George N.,* Light behavior ..... 414
Comet 1918 III (Schorr) ..... 467
1925 II (Schwassmann-Wachmann) .....210, 271, 325, 413
1927 VI (Gale) .....59, 100, 153, 210, 271, 324, 413, 467
1935 *d* (Van Biesbroeck) .....58, 100, 210
1937 *f* (Finsler) ..... 59
1937 *h* (Encke) .....59, 100, 153
notes, *G. Van Biesbroeck*.....58, 100, 153, 210, 271, 324, 413, 467, 515
seeker hoax, The, *Heber D. Curtis* ..... 71
Comets, their origin and behavior, *Edward Godfrey* ..... 231
Communications and comments .....59, 174, 231, 340, 414
Constellations, The, *William H. Pickering* ..... 78
Correction .....355, 595
*Curtis, Heber D.,* The comet-seeker hoax ..... 71

*Dory, Ivan,* Planetary and electron distances ..... 340
Dynamics of the Earth-Moon system, A model to demonstrate the, *Richard M. Sutton* ..... 254

Eclipse of 1937 November 18, The partial lunar, *Alexander Pogo* ..... 76
1938 May 14 and its saros series, The lunar, *Alexander Pogo*..... 385
1938 May 29, The solar, *Alexander Pogo* ..... 256
1938 November 22, The, *Alexander Pogo* ..... 565
Eclipses of the sun, Meteorological observations at total, *Willi M. Cohn*..... 201
Eros, Observations of, *Fletcher Watson, Jr.* ..... 122
*Erpenstein, O. M.,* Astronomical photography with a view camera ..... 148
Eternal why (poem), *Eugene Ginsberg* ..... 455
*Evans, Robley D.,* Determination of the age of meteorites from their radioactivity ..... 159

*Farnsworth, Alice H.,* Summary of sun-spot observations at Mount Holyoke College, 1937 ..... 121
*Fath, E. A.,* The double variability of 12 Lacertae ..... 241
*Feldman, Richard L.,* Shadow bands ..... 187
Fireball, A brilliant, *M. Rasmussen* ..... 54
*Fox, Philip,* George Ellery Hale (1868-1938) ..... 423
Francis G. Pease (1881-1938), *Gustaf Stromberg* ..... 357

Gamma Cassiopeiae, On the variable magnitude of, *Ernest Cherrington* ..... 183
*Garland, F. M.,* Signs of the Zodiac ..... 80
Geminids and Quadrantids observed, *Robert M. Dole* ..... 112
General notes .....64, 120, 175, 236, 295, 349, 420, 473, 533, 594
Geodesy and geophysics, International union of ..... 473

George Ellery Hale (1868-1938), *Philip Fox* ..... 423
*Gingrich, Curvin H.,* The sixtieth meeting of the American Astronomical Society ..... 451
*Ginsberg, Eugene,* Eternal why (poem) ..... 455
*Godfrey, Edward,* Comets, their origin and behavior ..... 231
Gravitation, A concept of, *Thaddeus Merriman* ..... 87
*Haas, Walter H.,* Lunar changes in the crater Aristarchus ..... 135
Hale, George Ellery (1868-1938), *Philip Fox* ..... 423
Harvard conference on Cepheid variables, The ..... 378
*Herget, Paul,* Jupiter X and XI ..... 509
*Hermann, Jacob,* Occultations during the total lunar eclipse of November 7-8, 1938 ..... 533
*Herrick, Samuel, Jr.,* Meteoritical proofs of the earth's motions ..... 580
*Hetzler, Charles,* Astronomical analogies ..... 475
Hoax, The comet-seeker, *Heber D. Curtis* ..... 71
Hole near Tiffin, Iowa, A peculiar, *C. C. Wylie* ..... 221
*Iba, Yasuaki,* Fragmentary notes on astronomy in Japan .....89, 141, 263
International Astronomical Union meeting at Stockholm, Sweden, *Frederick C. Leonard* ..... 539
Jackson-Gwilt medals and gifts, The ..... 176
Jupiter in 1937, Observations of, *Hugh M. Johnson* ..... 214
X and XI ..... 474
*Paul Herget* ..... 509
*Kaspar, Jan,* Czechoslovakian tektites and the problem of their origin ..... 47
*Khan, Mohd. A. R.,* Comparison of meteorite falls during A.M. and P.M. hours 51
On the meteoritic origin of the Black Stone of the Ka'bah 403
Lalande prize, The ..... 176
*La Paz, Lincoln,* The abnormal penetration of the Norfork, Arkansas, iron.. 523
atmosphere of the moon and lunar meteoritic erosion.. 277
great-circle distribution of the tektites ..... 224
*Leonard, Frederick C.,* A proposed curriculum in meteoritics for college students ..... 328
Recording the time and place of fall and the designation of meteorites ..... 581
The International Astronomical Union meeting at Stockholm, Sweden, 1938 August 3-10 ..... 539
Light behavior, *George N. Cole* ..... 414
Limits of umbral runs in lunar saros series, *Alexander Pogo* ..... 456
Literary inquiry ..... 64
*Luby, William A.,* Ocean currents ..... 128
Lunar changes in the crater Aristarchus, *Walter H. Haas* ..... 135
saros series, Limits of umbral runs, *Alexander Pogo* ..... 456
*Lundmark, Knut,* The central-epoch method in proper motion work ..... 318
*McColley, Grant,* Nicolas Reymers and the fourth system of the world..... 25
*McCusky, S. W.,* Radial velocities from objective prism spectra ..... 2
*McIntosh, R. A.,* Meteor rates in the southern hemisphere ..... 516
*McLaughlin, Dean B.,* Some problems of peculiar stellar spectra ..... 361
Mars, The 1937 opposition of, *Robert Barker* ..... 259
*Marshall, Roy K.,* The known asteroid orbits ..... 15
Two inexpensive orreries ..... 389

*Martz, E. P., Jr.,* Professor William Henry Pickering (1858-1938), an appreciation ..... 299
*Meeker, Ralph I., Jr.,* Observations pertaining to the times of meteorite falls.. 330
*Merriman, Thaddeus,* A concept of gravitation ..... 87
Meteor, A daylight, *P. Schuyler Miller* ..... 54
photograph of a nearly stationary, *Walter W. Zimmerman* ..... 105
Early determination of the height of a ..... 286
notes from the American Meteor Society, *Charles P. Olivier*.....
.....43, 101, 154, 216, 271, 325, 400, 467, 515, 576
rates in the southern hemisphere, *R. A. McIntosh* ..... 516
Meteoric astronomy, Definitions in, *C. C. Wylie* ..... 521
Meteorite, An unusual oxidized mass of Canyon Diablo, Arizona, iron, *L. F. Brady* ..... 110
crater, Excavation of the Haviland, Kansas, *H. H. Nininger* ..... 110
falls during A.M. and P.M. hours, Comparison of, *Mohd. A. R. Khan* 51
Frequency and distribution of observed, *Julia Lola Smead*... 331
Observations pertaining to the times of, *Ralph I. Meeker, Jr.* 330
On the double heating of a, *Davis P. Richardson* ..... 288
fall of the great Siberian, June 30, 1908, *I. S. Astapowitsch* 310
survey, A, *H. H. Nininger* ..... 409
The abnormal penetration of the Norfork, Arkansas iron, *Lincoln La Paz* ..... 523
Benld, *Ben Hur Wilson* ..... 548
Pantar, Lanao, Philippine Islands, *H. H. Nininger* ..... 578
which penetrated a roof at Baxter, Missouri, The, *H. H. Nininger* 407
Meteorites and the craters on the moon, A reply to Dr. L. J. Spencer's paper on, *H. H. Nininger* ..... 107
Contributions of the Society for Research on.....
.....47, 105, 159, 224, 277, 328, 403, 469, 523, 578
Determination of the age of, from their radioactivity, *Robley D. Evans* ..... 159
Recording the time and place of fall and the designation of, *Frederick C. Leonard* ..... 581
Shower of bright ..... 409
Meteoritic erosion, The atmosphere of the moon and lunar, *Lincoln La Paz*.. 277
hypothesis of the origin of continents, A, *E. R. Bartlam* ..... 481
iron phosphide, *John Davis Buddhue* ..... 282
Meteoritical proofs of the earth's motions, *Samuel Herrick, Jr.* ..... 580
Meteoritics for college students, A proposed curriculum in, *Frederick C. Leonard* ..... 328
Meteorological observations at total eclipses of the sun, *Willi M. Cohn*..... 201
Meteors and meteorites .....43, 101, 154, 216, 271, 325, 400, 467, 515, 576
bursting, The effect of distance on reports of, *C. C. Wylie* ..... 157
The resistance of the air to, *C. C. Wylie* .....104, 276
*Morgan, William W.,* Storrs B. Barrett ..... 125
*Nassau, J. J.,* Astronomical symposium ..... 359
Nicolas Reymers and the fourth system of the world, *Grant McColley*..... 25
*Nininger, H. H.,* A meteorite survey ..... 409
reply to Dr. L. J. Spencer's paper on "Meteorites and the craters on the moon" ..... 107

*Nininger, H. H.,* Excavation of the Haviland, Kansas, meteorite crater ..... 110
The meteorite which penetrated a roof at Baxter, Missouri. 407
Pantar, Lanao, Philippine Islands, meteorite ..... 578
Observatories, Notes from the Yerkes and McDonald ..... 474
Observatory, A small, *Noah W. McLeod* ..... 293
Centennial of the Loomis, May 7-8, 1938, *J. J. Nassau* ..... 237
fellowship, The Steward ..... 595
for Louisiana State University ..... 421
Notes from the Yerkes, *Otto Struve* ..... 205
Observers, Wisconsin ..... 63
Occultation of Zeta Tauri ..... 122
Uranus during the total eclipse of the moon, *Thomas D. Barry* 572
predictions .....99, 152, 210, 270, 323, 396, 466, 514, 575
Occultations during the total lunar eclipse of November 7-8, 1938, *Jacob Hermann* ..... 533
Ocean currents, *William A. Luby* ..... 128
Ode, *Lulu Barker* .....181, 430
*Odland, Lisa,* At the planetarium (poem) ..... 14
*Olivier, Charles P.,* Meteor notes from the American Meteor Society.....
.....43, 101, 154, 216, 271, 325, 400, 467, 515, 576
Variable star EZ Aquilae ..... 412
Orreries, Two inexpensive, *Roy K. Marshall* ..... 389
Orrery calculations, Revised, *Charles E. Balleisen* ..... 567
*Paneth, F. A.,* The history of the name Widmanstätten ..... 469
Pease, Francis G. (1881-1938), *Gustaf Stromberg* ..... 357
Personal notices .....64, 120, 175, 236, 295, 349, 420, 473, 594
Pickering, Professor William Henry (1858-1938), an appreciation, *E. P. Martz, Jr.* ..... 299
*Pickering, William H.,* The constellations ..... 78
Planetarium, At the (poem), *Lisa Odland* ..... 14
Planetary and electron distances, *Ivan Dory* ..... 340
distances, A power formula for, *J. Hugh Pruett* ..... 335
phenomena in 1938, *Herbert C. Wilson* ..... 33
Planet notes, *R. S. Zug* .....39, 97, 151, 207, 268, 320, 394, 464, 511, 573
Planets, Visibility of, for 1938, *William Malcolm Browne* ..... 31
*Pogo, Alexander,* Limits of umbral runs in lunar saros series ..... 456
The eclipse of 1938 November 22—A partial solar eclipse visible in the tropics ..... 565
lunar eclipse of 1938 May 14 and its saros series..... 385
partial lunar eclipse of 1937 November 18 ..... 76
solar eclipse of 1938 May 29 ..... 256
Proper-motion work, The central-epoch method in, *Knut Lundmark* ..... 318
*Pruett, J. Hugh,* A power formula for planetary distances ..... 335
Publications for distribution ..... 237
Radial velocities from objective prism spectra, *S. W. McCusky* ..... 2
Revolution period law, The, *Fred C. Bond* ..... 589
*Rice, Hugh S.,* Asteroid notes .....40, 99, 153, 208, 269, 321, 398, 465, 513
Science and its social relations, The committee on ..... 351
Shadow bands, *Richard L. Feldman* ..... 187
Skyscrapers, The sixth year of the Rhode Island, *Angeline M. Pettey*..... 418

*Smead, Julia Lola,* Frequency and distribution of observed meteorite falls.... 331
Society for Research on Meteorites—
Bibliography of papers read at the symposium on "Meteorite Craters" in 1937 ..... 525
Delegate appointed to the 1938 I.A.U. Meeting at Stockholm, Sweden... 332
Errata in the January, 1938, issue ..... 111
Introducing the term *meteoritelet* ..... 54
Notice concerning abstracts of papers ..... 332
Notice of the postponement of the sixth annual meeting ..... 285
Notice of sixth annual meeting .....525, 583
Preliminary announcement of the sixth annual meeting ..... 111
Recent lists of meteorite falls and statistics concerning meteorites..... 332
Spectra, Radial velocities from objective prism, *S. W. McCusky* ..... 2
Some problems of peculiar stellar, *Dean B. McLaughlin* ..... 361
Star-gazing at Riverview Park, Pittsburgh, Pa. ..... 419
Stellar absorption lines, The observation and interpretation of, *Otto Struve* ..... 431, 497
encounter, Description of a ..... 176
spectra, Some problems of peculiar, *Dean B. McLaughlin* ..... 361.
Stockholm, Sweden, meeting of the International Astronomical Union, *Frederick C. Leonard* ..... 539
*Stromberg, Gustaf,* Francis G. Pease (1881-1938) ..... 357
*Struve, Otto,* Notes from the Yerkes Observatory ..... 205
The observation and interpretation of stellar absorption lines ..... 431, 497
Sun, The ..... 1
*Joseph M. Synnerdahl* ..... 244
-spot observations at Mount Holyoke College, 1937, Summary of, *Alice H. Farnsworth* ..... 121
*Sutton, Richard M.,* A model to demonstrate the dynamics of the Earth-Moon system ..... 254
Symposium at Yerkes Observatory on physics and astronomy, Program for the 352
*Synnerdahl, Joseph M.,* The sun ..... 244
System of the World, Nicolas Reymers and the fourth, *Grant McColley*..... 25
Tektites and the problem of their origin, Czechoslovakian, *Jan Kaspar* ..... 47
The great-circle distribution of the, *Lincoln La Paz* ..... 224
Terminology again ..... 582
Time by the stars, Finding the, *G. B. Blair* ..... 132
Time-Pieces, Collection of ..... 296
Universe, Model of the, *Arthur T. Adams* ..... 138
Uranus, Occultation of, during the total eclipse of the moon, *Thomas D. Barry* 572
*Van Biesbroeck, G.,* Comet notes.....58, 100, 153, 210, 271, 324, 413, 467, 515
Variable star, A note on a Cepheid, *Noah W. McLeod* ..... 214
Variability of 12 Lacertae, The double, *E. A. Fath* ..... 241
Variable star, EZ Aquilae, *Charles P. Olivier* ..... 413
notes from the American Association of Variable Star Observers, *Leon Campbell* .....55, 112, 170, 211, 288, 343, 410, 526, 583
Variables, The Harvard conference on Cepheid ..... 378
*von Arx, William S.,* An astronomical gyroscope ..... 532
Widmanstätten, The history of the name, *F. A. Paneth* ..... 469

*Wilson, Ben Hur,* The Benld meteorite ..... 548
*Wilson, Herbert C.,* Planetary phenomena in 1938 ..... 33
*Wylie C. C.,* The resistance of the air to meteorites .....104, 276
The effect of distance on reports of meteors bursting ..... 157
A peculiar hole near Tiffin, Iowa ..... 221
Definitions in meteoric astronomy ..... 521
Yerkes Observatory, Notes from the *Otto Struve* ..... 205
*Zimmerman, Walter W.,* A photograph of a nearly stationary meteor ..... 105
Zodiac, Signs of the, *F. M. Garland* ..... 80
*Zug, R. S.,* Planet notes .....39, 97, 151, 207, 268, 320, 394, 464, 511, 573
